

Pledge Partners

We have instituted an **office-wide recycling program** and converted to **energy-efficient lighting**. We are working to **reduce our printed output by 40%** by year end 2009 and will institute electronic delivery of data both interoffice and to our clients when appropriate and secure. Additionally we pledge to continually evaluate ways that our company can **minimize our impact on the environment** and reduce energy consumption.

Sean M. Bennett
Asset Integration Consultants
Summerville, SC

To continue to **expand all recycling efforts** within the company and to **strengthen electronic business** with updates to IT hardware and software.

Jackie Knight, Jr.
Allen & Webb Industrial
Charleston, SC

We pledge to upgrade our vehicles to more **fuel-efficient vehicles**, to drive less by combining our trips, and to continue installing remote devices that allow us to perform electronic radio **service by remote control**.

Rick Buckner
Radio Communications of Charleston
Goose Creek, SC

I pledge to do my part on behalf of OOCL Charleston to **recycle**:

- All headset batteries
- All paper
- All coffee grounds as fertilizer for outdoor plants and trees
- Old computers for refurbishing and educational needs when applicable

Margie Hardwick
Orient Overseas Container Line (USA)
Charleston, SC

To do our part by **using low sulfur diesel** in all our boats (approximately 900 gallons per day).

Whit Smith
Charleston Branch Pilots Association
Charleston, SC

We will initiate **recycling** within our company and attempt to **include our office building**.

Elaine Chandler
The Hipage Co, Inc.
Charleston, SC

Pledge Partners

We have pledged to recycle within our office and have made it convenient for **all our staff to have recycling bins for paper and plastics**. Also we have highly encouraged recycling of paper products at everyone's personal workspaces.

***Peter Fennelly
Colliers Keenan
Charleston, SC***

We pledge to collect and **recycle** paper, plastics and cans, **conserve electricity**, use cups versus styrofoam and install a **programmable thermostat**.

***Vicki Harlan
ATS Logistics, Inc.
Charleston, SC***

To **reduce paper usage** and only print when necessary.

***Jimmy Connelly
C & C Warehouse
Hanahan, SC***

To meet with our management team to identify ways to **recycle** and **grow with a cleaner, healthier environment**.

***Hal Burton
Premier Logistics Solutions
Hanahan, SC***
